7. Command-Line Arguments

Create a Ruby script that accepts command-line arguments and prints each argument.

- Method: `print_arguments`

```
┌──(imen㉿hbtn-lab)-[…/scripting_cyber/0x00-ruby_scripting]
└─$ cat 7-main.rb
require_relative '7-args'

print_arguments
```

```
┌──(imen㉿hbtn-lab)-[…/scripting_cyber/0x00-ruby_scripting]
└─$ ruby 7-main.rb
No arguments provided.
┌──(imen㉿hbtn-lab)-[…/scripting_cyber/0x00-ruby_scripting]
└─$ ruby 7-main.rb arg1 arg2 arg3
1. arg1
2. arg2
3. arg3
```
